

Epilepsy Management Plan

This plan should be current, accurate and easy to understand. The plan should be developed by the person or people who have the most knowledge and experience of the person's epilepsy and seizures. It is very important for the person with epilepsy to be part of this planning process. A team approach to developing a plan is often helpful. The Epilepsy Foundation of Victoria recommends this plan be reviewed and signed by the person's doctor.

Please attach a photograph of the person with epilepsy in the space provided.
